# Bob Jones January 28 Quiz 

Question 1
41 responses

Bob Jones 1NT This is a hand that you should consider raising partner with only 3-card support. With weak spades and a strong doubleton, however, bid 1NT.

Steve Vogel 1NT I have a balanced 12-14 point hand without 4 spades. If I had a low doubleton in a side suit and better 3-card support for spades, I might choose a $2 \boldsymbol{1}$ rebid, but not on this hand.

Joe Muenks 1NT Easy peasy lemon squeezy. Shows 12-14 square. You don't have to have values in the unbid suits but that's an extra bonus on this hand. (We do not raise 1中 to $2 \boldsymbol{1}$ with only 3 cards unless we have a singleton diamond or heart.)

Bob Fisk 1NT If partner has five or more Spades, partner will (1) bid 2 to play, (2) bid 2 (XYZ) w/ an invitational hand, (3) bid $2 \mathrm{w} /$ a game-going hand w/ only five Spades, (4) bid 49 w/ 6+ Spades and a game-going hand, (5) bid $3>/ 3 \uparrow$ w/ 6+ Spades and a singleton in the suit bid, or (6) bid 3 $\mathbf{w} / 6+$ Spades, slam interest, and no red-suit shortness. Phew. Bridge is easy!

Steve Moese 1NT Not a hand worth raising on 3 cards. Were the doubleton worse than 10 x we can consider it. See: Steve Weinstein's article at https://bridgewinners.com/article/view/1m-1m-now-what/

## Bob Jones January 28 Quiz

## Question 2

Q 2 - North-South vulnerable

SOUTH WEST NORTH EAST
?

Question 2

Bob Jones 19 "5-5 come alive!" Open 14.

Steve Vogel 14 Whether you use the rule of 20 or 22, or just use your own bridge sense, this hand would seem to qualify for an opening bid at any vulnerability. Also, a 1 a opening makes it harder for the opposition to come in.

Joe Muenks 19 Epls\#2. Rule of 20/22 passes with 11 HCP and 10 cards in your longest 2 suits $=21>20$. And you have 2 defensive tricks (AK spades). You'll bid diamonds cheaply next round.

Bob Fisk Pass I used to open this pile o' goo ("Rule of 20, partner!"), but after being yelled at by my much, much more experienced partner, I learned not to. Bridge is hard.

Steve Moese 19 5-5 shape, 2 Quick Tricks and 11 HCP add up to Rule of $20+2$ opener, so I open.

# Bob Jones January 28 Quiz 

Question 3<br>Q 3 - East-West vulnerable<br>中A 5 ҮAJ 753 Q 63 中 Q J<br>SOUTH WEST NORTH EAST<br>1v Pass Pass 2* ?

Question 3

Bob Jones Pass 18 points is strong, but this is a "soft" 18 and partner couldn't respond. Let it go. Pass.

Steve Vogel $\underline{X} \quad$ Yes, I realize I have poor support for spades, but I just cannot sell out to 2 at this vulnerability, and my heart suit is too weak to rebid. I also am not a fan of a 2NT rebid, which would preempt partner's possible $2 \vee$ response to a double. Given that partner did not bid 14 over my 1V opening bid (which he/she might eke out even with a poor hand), I think it is slightly more likely that partner has clubs than spades.

Joe Muenks $\underline{X} \quad O k$, a tougher decision. We don't like to double with just 2 spades but partner will retreat to $2 \varphi$ with 2 hearts before bidding any suit less than $5+$ cards. We're showing $17+$ pts and our bid is primarily takeout, though we're fine if partner converts it $1 \mathbf{V}$, Txxx in diamonds and a black king. (We rebid NT after partner passes with 18-19 but not 2NT lest we play $3 \bigvee$ when partner holds: Qxx, Qxx, xxx, Txxx).

Bob Fisk 2NT I realize that this might get me in trouble, but if $E / W$ forget to double me, I can afford to go down two. That's not bad considering E/W make $3>$ for +110 . I'd pass at unfavorable vulnerability. If I double, partner is going to bid $2 \boldsymbol{4}$ holding xxxx Qx Jxx xxxx. Ick. Bridge is really hard.

Steve Moese Pass Partner is likely 0-4 with no A or KJ combination (they would strain to bid with an A). Our combined assets are limited to 22 HCP. Not a good time to declare and a great time to defend. Besides, partner has a bid coming. Bidding 2NT would NEVER cross my mind - partner doesn't have values for a response.

## Bob Jones January 28 Quiz

## Question 4 <br> Q 4 - Both vulnerable <br>  <br> NORTH EAST SOUTH WEST <br> 1NT P ?

Question 4
41 responses

Bob Jones Pass Weak long suits and singleton honors are strong arguments for timid bidding. Pass.

Steve Vogel Pass Just about all of my points are in my short suits, which leads me to believe that 1NT will often play better than any suit contract. If you don't feel the same, what is your alternative?

Joe Muenks Pass Epls\#3, the opponents haven't bid $2 \vee$ making yet, and we might even have enough to defeat it when they do. I'm not even tempted to offer a game or alternative contract even if I'm playing the rare convention that 2NT shows both minors weak or strong.

Bob Fisk Pass Why is this question in here? $100 \%$ ?

Steve Moese Pass Nothing shows a weak hand and the minor suits in this auction. Let's hope they are preempted out of a Major fit.

# Bob Jones January 28 Quiz 

Question 5
Q 5 - North-South vulnerable

| NORTH EAST | SOUTH | WEST |  |
| :--- | :--- | :--- | :--- |
| 1NT | Pass | $2 \boldsymbol{~}$ | Pass |
| 2 | Pass | $?$ |  |

Bob Jones 4- Strong players use 3 of the other major in this position to confirm partner's suit as trumps and show slam interest. They would bid 3 S . Without that agreement, bid $4 \bullet$.

Steve Vogel 4V Might we make slam sometimes? Of course, but my hearts are weak and I am just on the edge of inviting slam. My partner and I play that a 4 rebid shows a balanced quantitative raise in hearts, but it puts the entire burden on partner to make the decision of whether to make a move over game. This will often involve a guess or optimism, and not science. With this marginal hand, I will take the plus and sign off.

Joe Muenks 4V Epls\#4. Several weeks ago I advised that with 14-15 HCP and honors everywhere in a square hand just raise 1 NT to 3 NT , even with a 4 card major. "Here you go again." Now you have to raise to $4 \vee$ since slam is not a consideration and 3NT shows 4 spades at this point. We love aces but I don't see slam in the offing myself.

Bob Fisk 39 (modified-Baze). I play 3OM on an auction that begins 1NT-2e; 2M as showing slam interest in our agreed major and no biddable singleton or void. This leaves room for control bidding if partner is interested. Picture partner with Kxx KQTx Kxx KQx. Heh.

Steve Moese 4. A specialized treatment that says "I have 4 trumps, and a quantitative raise to 6 - are you a maximum?" This should be called the Goldman-Soloway Convention (It isn't; they call it Baze - another misnamed convention) originally published by Goldman under the Dallas Aces. The Convention? After 1NT-2e-2M:
30M shows undisclosed shortness 4 trumps and slam interest. Opener asks by bidding 3NT (or step 1 by agreement)
3NT is to play with 4 cards in the other major
4\% is RKB in opener's Major
4 - 4 card quantitative raise to 6 . Balanced hand but not 4333 .
4 M - to play
4 OM - not defined. Does not exist (wastes space)
4NT - Quantitative raise to 6 with 4 carded other Major and not 4 card support for opener's Major.
(Note - If you are familiar with Last Train Cuebids, switch the meaning of $4>$ and $4 \%$ ).

# Bob Jones January 28 Quiz 

Bob Jones $2 \boldsymbol{2 v}$ Too strong for $1 N T$, not strong enough for a reverse bid of $2 \boldsymbol{\varphi}$, and clubs too weak for 2\%. Pick your poison. We like $2 \boldsymbol{V}$.

Steve Vogel $\mathbf{2 v}$ This is about the minimum for a reverse (or perhaps just under it), but I would choose $2 \vee$ over any other rebid, as it most closely describes my hand compared to the alternatives. I like my intermediates.

Joe Muenks $2 \boldsymbol{\text { 2 }}$ Least lie. 1NT is distorted and a gross underbid. 2NT is distorted and a gross overbid. Opening 1 NT is not my style. I reverse a pt shy and with a holey moley club suit. Luckily I play a structured reverse with most partners so we'll land softly in a good contract. If you don't, there'll be a little guessing but I predict partner will rebid 24, you'll bid 2NT showing diamond cards and therefore real short spades and partner can place the contract.

Bob Fisk 2v (Reverse). This shows 16+ HCP (or extra distribution), four Hearts, and longer Clubs and is forcing for one round. Sweet! Bridge is ridiculously easy!

Steve Moese 1NT The hand is too weak for a $2 \vee$ rebid (Forcing Reverse) and the club suit is diaphanous and not worth rebidding. 1NT should suggest 2 spade cards, but here its the least worst lie - something many bridge players learn to do. Besides, we might get to play for a 7 trick contract if partner is worth only one bid. Tools exist for us to find a Heart fit - see new minor forcing or XYNT.

Bob Jones January 28 Quiz

|  | 1 | 2 | 3 | 4 | 5 | 6 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Bob Jones | 1NT | 14 | Pass | Pass | 4 | $2 \vee$ |
| Steve Vogel | 1NT | 14 | X | Pass | 4V | $2 \vee$ |
|  |  |  |  |  |  |  |
| Joe Muenks | 1NT | 19 | X | Pass | 4V | 2 |
